| <b>4</b>       | <b>0</b>        | <b>0</b>         |

#### **A. The expected Program Outcome are:**

##### **BA LLB**

|     |                                                                                                                                                                                  |
|-----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| PO1 | Students will demonstrate conceptual knowledge in the core areas of law.                                                                                                         |
| PO2 | Students will effectively apply their learnings to practical legal issues.                                                                                                       |
| PO3 | Students will be able to exhibit effective legal professional skills, employing oral and written communication, legal research, analysis, rationalization and critical thinking. |
| PO4 | Students will demonstrate ability to evolve alternative solutions from dynamic socio-economic and techno-legal perspectives.                                                     |
| PO5 | Students will demonstrate desirable qualities to be employable in the relevant market.                                                                                           |
| PO6 | Students will show sensitivity towards ethical, moral and social issues arising in their professional career.                                                                    |
| PO7 | Students will exhibit commitment, teambuilding, networking, leadership and lifelong learning skills to excel in legal world.                                                     |

##### **BBA LLB**

|     |                                                                                                                                                                                                                               |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| PO1 | Students will demonstrate conceptual knowledge as well as skills in business administration, leadership and management in the context of global industrial best practices that are inclusive, gender neutral and sustainable. |
| PO2 | Students will effectively apply their legal acumen to practical situations in local and global socio-legal challenges in the business domain.                                                                                 |
| PO3 | Students will be able to exhibit legal competence, employing effective communication, cognitive thinking, IT centric legal research, analysis, rationalization and critical reasoning.                                        |
| PO4 | Students will demonstrate the ability to curate alternative solutions and dispute resolution from dynamic socio-economic and techno-legal perspectives in the business ecosystem.                                             |
| PO5 | Students will demonstrate qualities to be employable in the relevant market.                                                                                                                                                  |

|     |                                                                                                                                                           |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| PO6 | Students will be able to apply professional ethics, best practices and show sensitivity towards ethical, moral and social issues arising in their career. |
| PO7 | Students will exhibit commitment, teambuilding, networking, leadership and lifelong learning skills to excel in fast-evolving legal world.                |

### **B.COM LLB**

|     |                                                                                                                                                                                                  |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| PO1 | Students will demonstrate conceptual knowledge as well as skills in business and commerce in the context of global industrial best practices that are inclusive, gender-neutral and sustainable. |
| PO2 | Students will effectively apply their legal acumen to practical situations in local and global socio-legal challenges in commercial transactions.                                                |
| PO3 | Students will be able to exhibit legal competence, employing effective communication, cognitive thinking, IT centric legal research, analysis, rationalization and critical reasoning.           |
| PO4 | Students will demonstrate the ability to curate alternative solutions and dispute resolution from dynamic socio-economic and techno-legal perspectives in the business and commerce ecosystem.   |
| PO5 | Students will demonstrate qualities to be employable in the relevant market.                                                                                                                     |
| PO6 | Students will be able to apply professional ethics, best practices and show sensitivity towards ethical, moral and social issues arising in their career.                                        |
| PO7 | Students will exhibit commitment, teambuilding, networking, leadership and lifelong learning skills to excel in fast evolving legal world.                                                       |

### **B. The expected Course Outcomes are:**

|      |                                                                                                                                       |
|------|---------------------------------------------------------------------------------------------------------------------------------------|
| CO 1 | Students will be able to <b>explain</b> the basic principles, concepts, and doctrines governing the environmental laws.               |
| CO 2 | Students will be able to <b>apply</b> the principles relating to the environmental law in various real-life cases and legal disputes. |

|      |                                                                                                                                               |
|------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| CO 3 | Students will be able to <b>analyze</b> the applicable legal regime specifically legislated for environmental protection in India.            |
| CO 4 | Students will be able to <b>evaluate</b> the structure, function and jurisprudence of courts and tribunals in India on environmental matters. |

Signature of Head

### A. Target

|           |                  |
|-----------|------------------|
| Target    | 50% (marks)      |
| Level – 1 | 40% (population) |
| Level – 2 | 50% (population) |
| Level – 3 | 60% (population) |

### B. Method of Evaluation\*

|                                                   |
|---------------------------------------------------|
| UG                                                |
| Quiz, Class Tests, Case Study & Viva – Voce (50%) |
| Mid Semester Examination (20%)                    |
| Semester End Examination (30%)                    |

### C. Passing Criteria:

| Scale                 | UG                                                                                                                   |
|-----------------------|----------------------------------------------------------------------------------------------------------------------|
| Out of 10 Point Scale | SGPA – “5.0” in each semester<br>CGPA – “5.0”<br>Min. Individual Course Grade –<br>“C”<br>Course Grade Point – “4.0” |

\*for UG, passing marks are 35/100 in a paper (Composite)

### **SUGGESTIONS FOR FACULTY**

- Faculty should keep track of the students with low attendance and counsel them regularly.
- The course coordinator will arrange to communicate the short attendance (as per UPES policy) cases to the students and their parents monthly.
- Topics covered in each class should be recorded in the table of RECORD OF CLASS TEACHING (Suggested Format).
- Internal assessment marks should be communicated to the students twice in a semester.
- The file will be audited by respective IQAC members for theory as well as for lab as per schedule.
- The faculty is required to maintain these files for a period of at least three years.
- This register should be handed over to the head of department, whenever the faculty member goes on long leave or leaves the Colleges/University.
- For labs, continuous evaluation format (break-up given in the guidelines for result preparation in the same file) should be followed.
- The department should monitor the actual execution of the components of continuous lab evaluation regularly.
- Instructors should maintain record of experiments conducted by the students in the lab weekly.
- Instructors should promote students for self-study and to make concept diary, due weightage in the internal should be given under faculty assessment for the same.
- Course outcome assessment: To assess the fulfilment of course outcomes two different approaches have been decided. Degree of fulfillment of course outcomes will be assessed in different ways through direct assessment and indirect assessment. In Direct Assessment, it is measured through quizzes, tests, assignments, Mid-term and/or End-term examinations. It is suggested that each examination is designed in such a way that it can address one or two outcomes (depending upon the course completion). Indirect assessment is done through the student survey which needs to be designed by the faculty (sample format is given below) and it should be conducted towards the end of course completion. The evaluation of the achievement of the Course Outcomes shall be done by analyzing the inputs received through Direct and Indirect Assessments and then corrective actions suggested for further improvement.
- At the completion of the course, course attainment and other documents should be shared with the program coordinator for computation of Program attainment.
- At the completion of the course Faculty members are suggested to share the innovative teaching techniques along with the course plan (format provided by IQAC).
- Faculties are encouraged to share the master/expert classes evidence (as per the event report format)
- Faculties are also encouraged to include MOOCs, SWAYAM any other online content and share the evidence of MOOCs courses /online courses referred (as per the event report format).
- Faculties are encouraged to share the evidence related to interventions or initiatives focusing the unique/slow and Fast Learners along with Course Completion files.

### **INDIRECT ASSESSMENT**

**Sample format for Indirect Assessment of Course outcomes:**

|                |
|----------------|
| NAME:          |
| ENROLLMENT NO: |
| SAP ID:        |
| COURSE:        |
| PROGRAM:       |

Please rate the following aspects of course outcomes of-----.

Use the scale 1-3\*

| Course Outcomes | Statement                                                                                                                                     | 1 | 2 | 3 |
|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------|---|---|---|
| CO1             | Students will be able to <b>explain</b> the basic principles, concepts, and doctrines governing the environmental laws.                       |   |   |   |
| CO2             | Students will be able to <b>apply</b> the principles relating to the environmental law in various real-life cases and legal disputes.         |   |   |   |
| CO3             | Students will be able to <b>analyze</b> the applicable legal regime specifically legislated for environmental protection in India.            |   |   |   |
| CO4             | Students will be able to <b>evaluate</b> the structure, function and jurisprudence of courts and tribunals in India on environmental matters. |   |   |   |

- \*  → Low level of attainment
-  → Moderate level of attainment
